

Why Use Seaeye Electric ROVs ?

Aim: 'ACHIEVE MORE WITH LESS'

- Potential to perform most work tasks except heavy construction / intervention
- Smaller handling systems & Lower power requirement
- Smaller vessel / platform deck loading requirements
- Faster mob / demob time
- Simple to operate & maintain – less down time
- Better access to complex structures
- More Agile
- Better for the environment – minimal oil
- Lower capital & operating costs – lower manning levels and less servicing required
